PROJECT

E-Basket (Online Shopping Web Application)
☐ Developed a e-commerce web application using Python and Django framework, enabling customers to browse, search, and purchase products online.
☐ Implemented user authentication, Sign up, and Log in.
☐ Utilized front-end technologies (HTML, CSS, and JavaScript) to create an user-friendly interface, enhancing the overall user experience.

Blog Post Web Application
☐ Developed a blog post web application using Python and Django framework, allowing users to create, edit, and publish blog posts.
☐ Implemented user registration and authentication functionalities, ensuring secure access to user accounts and personalized blog management.
☐ To promote an active and engaged community of bloggers by allowing users to comment on and share each other's blog posts.
